

OPEN CIVIC CAMPAIGN WITH WELL ATTENDED MEETINGS

RADIO ARTIST LOCATES SIAM

Vancouver Station

Getting Siam from Edmonton is the latest thing in radio circles here. Mr. Pipes of the Lowe block on the Stony Plain road purchased

from J.A. Werner. As is the habit with radio enthusiasts he promptly turned in, an kept the performance up until after 2 a.m.

The night was clear and without static interference, and he was suddenly electrified to hear a voice out of the upper ether announcing the call letters "L.Q." with the added location name of some station in Sierra.

Later developments proved that the Asiatic point was carrying on a test with one of the Vancouver stations. As a local radio expert this call is supposed to be one of the most distant which has filtered through to Edmonton so far.

WORLD REVISE ORDER
WINNIPEG, Dec. 8.—Appeals have been sent to Ottawa from every veterans' organization in Manitoba asking revision of recent Government of Soldier's Civil Recognition. Many ministers voiced similar appeal from pulpits Sunday.

payable to cash" as requested by Esdale. The latter he delivered to Esdale.

He swore that it was later that he made investigations in the records of the firm, and convinced himself that the printing had never been done.

Letters, and declarations he had disclosed during the recent election campaign were read before the court.

Asked as to his statement that "it was due to the defeat of the government that funds were needed for party purposes," Neill admitted that he had only "assumed that." He said that he had received no

The next phase deals with the Camrose Job Press. A. L. Smith, stating, "that is was owned in 1917 by one Johnson and Geo. P. Smith, and a Bill of Sale prepared in which Geo. P. Smith purported to sell to his partner, and enquiry will be made into the bona fides of the sale."

THE MAYORALTY

Mayor Blatchford is again a candidate for the chief magistracy of the city. Having held the office for two years he is intimately in touch with civic affairs and has acquired an experience which qualifies him for further service of a highly satisfactory character in future. There has been no serious criticism of the administration of the city's business during his term. On the contrary, civic finances are shown to be now in a decidedly better position than they were when he took office, while both the administrative and the representative duties attaching to the mayoralty have been discharged in a creditable manner.

The first street subway and the Government terminal elevators are some of the direct evidence of the fidelity with which Mr. Blatchford has followed up the pledges he gave to the electors when he came before them two years ago and that his efforts have proven of great benefit to the city. A declaration of continued confidence at the polls would be a fitting recognition of the past services of the Mayor, and would secure to the city the benefit during the coming term of the experience he has gained. Edmonton is apparently on the eve of large developments, and Mayor Blatchford, with his enterprising, aggressive and sane leadership at the city hall, can be of untold assistance in translating these expectations into achievements.

ANOTHER WASHINGTON TREATY NEEDED

While Europe is cheerier by the news that the League of Nations is trying to formulate a scheme for general disarmament, the United States aircraft board is demanding larger appropriations for the army and navy air services, and British publicists are noting that France has an altogether disproportionate number of airplanes ready for service.

If these developments cast any measure of doubt upon the practicability of disarmament, they equally suggest the urgency of some plan for the restriction of competition in the building of air fleets, similar to that which was adopted a few years ago for the regulation of water-borne ships. Little will have been accomplished in the interests of either security or economy if while the Powers set bounds to their naval construction and expenditure, they plunge into unrestricted rivalry in the building of overhead fighting craft.

GRAIN MOVEMENT RESUMED

It is important news in this part of the West that the embargo has been lifted on grain going to the Pacific ports, so far as it affected grain of "straight" grade. The restriction was imposed, not because of the volume of traffic affected, but because a large proportion of the grain was damp and needed hospital treatment before being loaded on shipboard for export. The drying facilities at Vancouver could not keep up with the flow of grain needing such treatment, and the movement had to be held up for a time. The embargo is now lifted only so far as concerns grain which does not need drying. Damp grain is for the time taboo, and will have to be treated in the Edmonton elevator before being forwarded to the terminal port. The trade is thus not completely relieved of hindrance, but that is done so far as circumstances permit.

The incident suggests that Vancouver needs not only more elevators, but larger equipment for handling damp grain. Or that a corresponding enlargement of the hospital facilities is required at prairie points. As between the two, it is probable that the drying should be done at internal elevators rather than that the water should be expelled in the seaboard and evaporated there, in practice the difficulty will probably have to be met by an increase of drying facilities at both internal and terminal elevators. While the weather slowly drying harvest and threshing time produced this year an abnormal amount of damp grain in this part of the West, that is a contingency that will have to be provided for, and the sooner the better. Fortunately the price of what has been threshed sharply upward, and the farmer has gained by the slowing down of the movement.

OUR DAILY POEM

By EDGAR A. GUEST

A DIFFICULT LETTER FOR JANET

I'm just a little girl, and I
 Can't say the way I should;
 Make no difference what I try.
 I can't get 'em very good.
 Ella are hard to say, see,
 That's my paper you're at me.
 I say you're not just a yam,
 When you're asked to tell
 Other people how I am.
 I just answer, "very well."
 Then they yaffs at being told
 I am over three years old.

Copyright 1925 Edgar A. Guest

Do You Remember?

FORTY YEARS AGO

From the Edmonton Bulletin, Saturday, December 1st, 1885.
 According to announcement a meeting of the Edmonton Literary Society was held in the school house last evening for the purpose of re-organizing for the winter campaign. There was a good attendance and a lively interest was manifested. The executive committee consisted of Mr. McCleary, president, D. Ross, J. Hargrave and W. D. Johnston. It was decided to hold a regular meeting on Thursday evening next. The subject of debate to be, "Resolved that the farmer is more independent than the mechanic." Affirmative: A. Dawson, J. Taylor and Tom Henderson. Negative: A. Dawson, J. Taylor and Tom Henderson.

D. McCleary of Burgess river, who was engaged with a train to accompany Gen. Bragg's force to Pitt River last week, returned on Thursday evening. He has had a successful business trip, and the farmer is more independent than the mechanic. Affirmative: A. Dawson, J. Taylor and Tom Henderson. Negative: A. Dawson, J. Taylor and Tom Henderson.

THIRTY YEARS AGO

From the Edmonton Bulletin, Thursday, December 11, 1895.
 A tea meeting in connection with the opening of the new First Methodist church took place on Tuesday evening.

E. M. Hubbard, D.D., left for Ottawa on Tuesday night after spending a very busy summer in the Edmonton district.

The total assessment of the town of Edmonton for the current year is \$1,145,135. This is made up as follows: land \$100,000; personal property \$135,000; the assessment on account of the public school is \$135,042 and an amount of the separate school \$135,042.

At last night's council meeting offers of the dedication of College avenue, 66 feet in width across the front of the Methodist station property at the brow of the hill and the extension of McLaughlin street to the river across the same property were accepted.

Ottawa—Charles Wallace may resign before twenty-four hours to go. He has a row on with Hargrave and Montague over North Ontario. Wallace says that McLaughlin should come out for no interference. If not, the ex-minister will support the Hargrave candidate, who is a conservative and an Orangeman. Hargrave says that Wallace has got to be shipped into the river or kicked out.

TWENTY YEARS AGO

From the Daily Edmonton Bulletin, Friday, December 13, 1905.
 The telegraph line is expected to reach the city tomorrow.

The Pacific risk has opened for the season. The Canadian Pacific is expected to open on Tuesday. The Great Central line, owned by R. Matz, has been purchased by Holt-Engle.

A Wellington dispatch says that Scotland's Government support the New Zealand bill.

TEN YEARS AGO

From the Morning Bulletin, Wednesday, December 13, 1915.
 A bank from one of the money takers had dropped in the vicinity of the city black yesterday it would have come no more unexpectedly than the notice of an injunction against the council restraining them from a vote on the final reading of the power agreement by-law.

Against the votes of Aldermen McArthur and Sheppard, members of the committee, the recommendation of the safety and health committee that a plebiscite be taken on December 11th to ascertain public opinion on the street numbering system now in vogue was carried by a vote of 10 to 2. The committee's plan prevented debate being carried by the solid vote of the other eight aldermen.

Alfred Jones is being reported to be retiring to fortified camp at Kavata.

ECHOES OF THE PRAIRY

Toronto Telegram: If a pedestrian hit an auto and injured it severely, that would be news.

Toronto Globe: The movement for feminine independence is being impelled by the disclosure that Mrs. Fergusson, Governor of Texas, is consulting her husband.

Calgary Alberta: John Bull is diving out some of the obnoxious Bolsheviks who are making their home in Britain, and he is throwing some others in jail. The question now arises, what will all these radical, rampant persons do, who will be the eyes of Hyde Park?

Young Arthur: "An' that means, I s'pose, there ain't gold 't' be no sandy claim?"

Current Comment

Summing Shafts

She—My first husband had much better sense than you have.
 He—I don't see it. We are both foolish enough to marry you.

Parson (contending)—God is satisfied when you have done your duty, Brother.

Downcast Man—Yes, but there are the neighbors.

"The stock market is a far more than a mere market."
 Propositions will do about it?"

Patience: "How would you like to go for your honeymoon in an airplane?"

Lady: "Not say—I should hate to miss the launch."

Patience: "You may say your father was injured in an explosion? How did it happen?"

Child: "Well, mother, said it was too much for him, and after that was his little accident."

Lawyer: "If you expect to be acquitted, your wife will have to testify in your defense."
 The Accused: "That's easy. Just tell her I am going to be acquitted."

A lady called waiting: "If your sister makes up her mind whether to come down, and see me or not?"

Booby: "I don't need such a message."

A woman's wife recently addressed a meeting of union housewives on their home duties. She said: "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

"I am a housewife, and I am a housewife," she said. "I am a housewife, and I am a housewife."

DR. FRANK CRANE'S EDITORIAL

MRS. ROSE PASTOR STOKES, in speaking of marriage, says that it was an institution that made for immorality. Her contention was that a man and woman who live together as husband and wife, but did not love each other, are guilty of immorality.

Does this man live true? There is much more than committed in the name of marriage.

It must be remembered that all relations between the sexes have been tried, and marriage has stood the best test of all of them.

Marriage is not an invention of the church or the state; it is something that has been imposed upon man by an authority.

People get married because they want to. They just want to prefer living with one mate all their lives.

And this is a more wholesome preference than promiscuity, cohabitation, and so forth. And marriage is the best result discovered for the protection of the health of the adult and welfare of the children.

Marriage is an evolution, the consummate flower of the growth of humanity in civilization. It is not an artificial barrier upon upon.

Of course marriage, being human, is faulty, and there are many instances of breakdown. But it is a question of degree. Marriage exists today not because of the penalties attaching irregularly, nor because of the evils that afflict the marriage, but because lovers want it.

A man gets no pleasure out of living loyally with a woman than he does out of living disloyally with a great one. This he does as a rule and as a general thing, and as long as holds true the marriage relation will continue.

INCREASE SHOWN IN WORLD WHEAT CROP

Estimates of the production of wheat in the world for 1925-26 show a marked increase over the 1924-25 crop. The total world crop is estimated at 2,244,148,000 bushels, an increase of 122,000,000 bushels over the 1924-25 crop.

The total wheat crop of Europe, outside of Russia, is estimated at 1,024,242,000 bushels, an increase of 122,000,000 bushels over the 1924-25 crop.

The total wheat crop of North America is estimated at 1,219,906,000 bushels, an increase of 122,000,000 bushels over the 1924-25 crop.

The total wheat crop of Asia is estimated at 1,000,000,000 bushels, an increase of 122,000,000 bushels over the 1924-25 crop.

The total wheat crop of Africa is estimated at 1,000,000,000 bushels, an increase of 122,000,000 bushels over the 1924-25 crop.

The total wheat crop of Australia is estimated at 1,000,000,000 bushels, an increase of 122,000,000 bushels over the 1924-25 crop.

The total wheat crop of New Zealand is estimated at 1,000,000,000 bushels, an increase of 122,000,000 bushels over the 1924-25 crop.

The total wheat crop of the British Isles is estimated at 1,000,000,000 bushels, an increase of 122,000,000 bushels over the 1924-25 crop.

The total wheat crop of the Continent of Europe is estimated at 1,000,000,000 bushels, an increase of 122,000,000 bushels over the 1924-25 crop.

The total wheat crop of the Empire is estimated at 1,000,000,000 bushels, an increase of 122,000,000 bushels over the 1924-25 crop.
